PROFESSIONAL SUMMARY

Business operations, strategy and growth professional with a mechanical engineering background and hands-on experience across service operations, partner networks, customer acquisition, performance marketing and technology delivery. Turns ambiguous priorities into owned projects: pricing, business cases, field operations, B2B agreements and product requirements, working directly with leadership, partners, field teams and developers.

CORE COMPETENCIES

Strategy: Business model design, Go-to-market planning, Revenue model planning, Decision notes, Excel and Google Sheets analysis

Business Operations: 0-to-1 operations, Field operations, Vendor and partner management, SOPs, Pricing, Scheduling, Escalations, Program coordination, Cross-functional execution

Growth: Customer acquisition, Business development, B2B partnerships, Subscriptions, Conversion funnels, Lead qualification, Retention follow-up

Product & Technology: Product requirements, Marketplace workflows, Commission, wallet and payout design, Testing and QA, API and deployment coordination, AI-assisted development

Performance Marketing: Meta Ads, Google Ads, Catalogue and retargeting campaigns, Meta Pixel and events, GA4, Conversion tracking, Local marketing

Automation & CRM: WhatsApp Business API, CRM workflows, Lead management, Booking and renewal follow-ups

KEY EVIDENCE

- **Operating record:** 402 unique customers, 389 completed one-time services, 91 subscription customers and 28% repeat one-time bookings in the verified MechServi tracker sample, November 2025 – April 2026.
- **Acquisition:** 4,799 chat conversations and 2.16M impressions across 15 MechServi Meta campaigns (Meta Ads Manager export to November 2026).
- **Launch funnel:** 135 WhatsApp conversations in 15 days from three Meta campaigns for SetoraHome, October 2026.
- **Product delivery:** Led requirements for MechServi's customer app, partner app, admin dashboard and API, developed and in deployment; about 227 automated tests on the API.

PROFESSIONAL EXPERIENCE

Technology, Growth & Project Consultant | Project engagements

Independent / Remote | May 2026 – November 2026

Titles show the role held on each project, not employment.

BlooCube | CTO / Technology Lead (project)
Brand and creator marketplace

- Defined the commission model, wallet, withdrawal rules and payout workflow; tested the campaign-to-withdrawal flow in production.

SetoraHome | Digital Growth & Marketing Consultant
Home-services brand, Varanasi launch

- Designed the launch funnel from Meta ad to WhatsApp conversation to booking, with lead qualification and follow-up SOPs.

InstaBeam / Beam.Growth | Digital Growth & Technology Consultant
Digital marketing and technology services

- Defined positioning, service lines, packages and pricing; built a lead pipeline with enquiry forms and a leads dashboard.

Hasiru Nidhi | Website & Digital Product Consultant
Nature-stay brand

- Delivered the live website and wrote and tested marketplace code; the production database connection is pending.

Kumba Gateway / Meta Classes | Funnel Strategy; Trainer
Funnel design and ad training

- Designed an ad-to-WhatsApp acquisition funnel; taught a four-week, 16-session Meta Ads and Google Ads course.

Performance Marketing Specialist (part-time) | Project Guerdon LLP (Guerdon Kicks)
Remote | June 2026 – September 2026

- Planned and managed Meta campaigns across awareness, retargeting and catalogue sales for an e-commerce brand.
- Analysed CPC, CTR, add-to-cart, checkout and purchase data; investigated Pixel, purchase-event and catalogue tracking issues; delivered optimisation benchmarks.

Business Operations & Growth (Founder) | MechServi Technology (OPC) Private Limited
Lucknow, Uttar Pradesh | May 2024 – Present

Doorstep vehicle-care business growing into a connected marketplace (mechservi.in).

- Run business operations end to end: service packages, pricing, partnerships, client accounts and customer acquisition.
- Set up operations from zero and coordinate the team: service SOPs, vendor and partner onboarding, field-team scheduling, quality checks and complaint resolution.
- Run Meta and Google Ads into WhatsApp-first booking journeys, with CRM and WhatsApp Business workflows for follow-ups and subscription renewals.
- Built recurring revenue through monthly wash subscriptions and signed a B2B service agreement in May 2025.
- Directed the customer app, partner app, admin dashboard and platform API from requirements through testing; delivered with developers and AI-assisted tools.

Engineer – Sales | Amazon Control Technology Pvt. Ltd.
Lucknow, Uttar Pradesh | 2021

Production & Maintenance Engineer (contract) | MULTIVAC Laraon India Pvt. Ltd.
IMT Manesar, Gurugram | 2020

- Worked with thermoforming, tray-sealing and chamber packaging machines and supported documentation.
